## **SUBJECT: PUBLIC SALES ON SCHOOL PROPERTY**

The Board of Education prohibits commercial sales or solicitations of funds on school property except when the proceeds of such sales or solicitations benefit an educational or charitable purpose and the District receives fair market value of the use of its facilities, if any. In such instances, a permit may be requested from the Superintendent of Schools for the use of school property for public sales.

School organizations and parent associations may earn money through fund raising activities or sales on school property subject to the approval of the building principal and consistent with the requirements of this policy and any associated regulations.

Rules and Regulations for public sales on school property have been developed in Administrative Regulations.

New York State Constitution  
Article 8, Section 1  
Education Law Section 414
